

APOLLO SMART

20.4

SMALL GIANT

TILTING BALLAST

NEW ENGINE HOOD

90° ROTATING RADIATOR

NEW PATENTED INNOVATION

The Dieci Research & Development department has created a set of patented solutions that increase accessibility to the components for comfortable and immediate maintenance.

DIMENSIONS

Agile in small spaces, precise in all movements. The high strength of the boom makes it possible to **handle loads at great heights** without any risk.

The **3 steering modes** - front, concentric, transverse - allow **smooth driving** even with the heaviest loads.

The dashboard layout has been completely revised to improve **accessibility** to the roomy cab.
